### Report of an Event on “CRT Technical Training Programme”

From 22<sup>nd</sup> October, 2018 to 01<sup>st</sup> November, 2018 all the 4<sup>th</sup> -B.Tech Students are participated in CRT Technical Training Programme Conducted by Internal Faculty and organized by Training and Placement Cell in presence of Mr E Sudheer

Campus recruitment training CRT, also known as placement training: A set of training programs, to train college students and get them ready for job interviews, during or after their final year of college.

These training programs can be broadly divided into two areas:

- 1) Communication and soft skills
- 2) Quantitative aptitude and logical reasoning

These candidates are given a higher preference, and actively pursued by companies for pre-placement offers (ppo), or during main campus placement in the final year, and or even after.

While academic inputs prepare students thoroughly and intellectually, the work challenges that the student will find themselves in due course would require additional interpersonal and business skills that are not part of the regular curriculum in many institutions today.

Moreover, expectations and responsibilities in the workplace are very different than those in college.

There are unspoken nuances and social norms that many graduates are completely unaware of and adjusting to a professional environment can be extremely challenging as also traumatic to a few.

This transition is often a big adjustment for many graduates.

Hence, companies look for candidates who have undergone placement training and display an understanding of these important skills.
